

### **Craig D. Idso, Ph.D.**

Coauthor

*Climate Change Reconsidered*

**Dr. Craig D. Idso** is the coauthor, with Dr. S. Fred Singer, of *Climate Change Reconsidered: The 2009 Report of the Nongovernmental International Panel on Climate Change (NIPCC)* (The Heartland Institute, 2009), a comprehensive critique of the Fourth Assessment Report of the Intergovernmental Panel on Climate Change.

Dr. Idso is the founder, former president, and currently chairman of the Center for the Study of Carbon Dioxide and Global Change. The Center was founded in 1998 as a non-profit public charity dedicated to discovering and disseminating scientific information pertaining to the effects of atmospheric carbon dioxide enrichment on climate and the biosphere. The Center produces a weekly online newsletter, *CO2 Science*, and maintains a massive online collection of editorials on and reviews of peer-reviewed scientific journal articles relating to global climate change.

Dr. Idso's research has appeared many times in peer-reviewed journals, including *Geophysical Research Letters*, *Energy & Environment*, *Atmospheric Environment*, *Technology*, *The Quarterly Review of Biology*, *Journal of Climate*, *Environmental and Experimental Botany*, *Physical Geography*, and the *Journal of the Arizona-Nevada Academy of Science*.

Dr. Idso is the author or coauthor of several books, including *CO2, Global Warming and Coral Reefs* (Vales Lake Publishing, LLC, 2009); *Enhanced or Impaired? Human Health in a CO2-Enriched Warmer World* (Center for the Study of Carbon Dioxide and Global Change, 2003); and *The Specter of Species Extinction: Will Global Warming Decimate Earth's Biosphere?* (George C. Marshall Institute, 2003). He contributed chapters to McKittrick, R. (Ed.), *Critical Topics in Global Warming* (Fraser Institute, 2009) and *Encyclopedia of Soil Science* (Marcel Dekker, 2002).

Dr. Idso received a B.S. in Geography from Arizona State University, an M.S. in Agronomy from the University of Nebraska - Lincoln, and a Ph.D. in Geography from Arizona State University, where he also studied as one of a small group of University Graduate Scholars. He was a faculty researcher in the Office of Climatology at Arizona State University and has lectured in Meteorology at Arizona State University.
